Attachment 4.1: Weather story cards

I woke up in the morning and looked outside. **The weather** looked **sunny** and **warm** and there were no **clouds** in **the sky**. I decided to go for a walk.

When I stepped out of the house I noticed that although the **sun** was shining brightly, it was **cold** outside. I realized that I have to go back inside and put on a jumper.

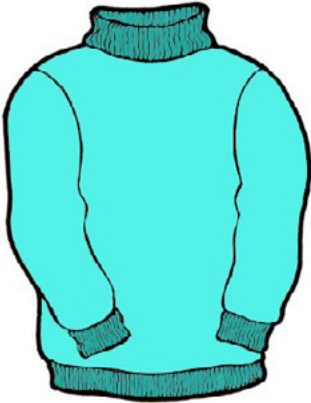

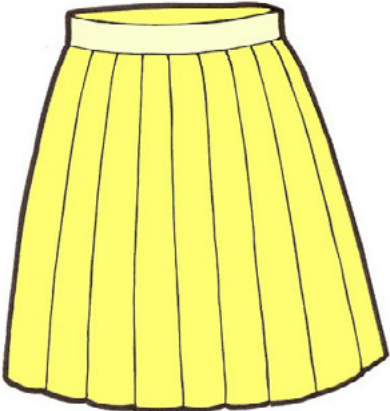

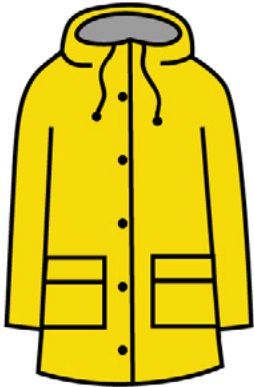

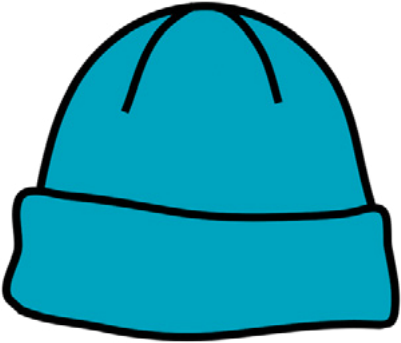

After putting on some warmer clothes I started walking towards the nearby forest. Suddenly I noticed a drop of water falling on my nose. I looked up and realized that **the weather** was getting **stormy**. The **clouds** were getting darker and darker and the trees started moving because **the wind** was getting stronger.

Very quickly it started to **rain**. I didn't have my raincoat on nor my umbrella with me so I ran under the nearest tree. But then I realized that if **lightning** strikes I might be in danger under the tree. I decided to run back home.

I was soaking wet when I opened the door and stepped inside. Suddenly I felt really tired. I decided to take a nap. I think I slept for an hour or so. When I woke up and looked outside **the weather** had changed completely. The **sun** was shining again and I could see a beautiful **rainbow** behind the nearby forest. It is amazing how **the weather** can change just in one day!
